Gender In History Global Perspectives

Thank you certainly much for downloading Gender In History Global Perspectives. Most likely you have knowledge that, people have look numerous times for their favorite books with this Gender In History Global Perspectives, but stop occurring in harmful downloads.

Rather than enjoying a fine PDF taking into account a cup of coffee in the afternoon, then again they juggled in the same way as some harmful virus inside their computer. Gender In History Global Perspectives is simple in our digital library an online access to it is set as public hence you can download it instantly. Our digital library saves in multiple countries, allowing you to acquire the most less latency era to download any of our books in imitation of this one. Merely said, the Gender In History Global Perspectives is universally compatible in the same way as any devices to read.

*Gender in World History* Professor of History and Provost Peter N Stearns 2000 Completely updated to include with new chapters, this is second edition is a fascinating exploration of what happens to established ideads about men and women, and their roles, when different cultural systems come into contact.

*Women's Activism* Francisca de Haan 2013 Women’s Activism brings together twelve innovative contributions from feminist historians from around the world to look at how women have always found ways to challenge or fight inequalities and hierarchies as individuals, in international women’s organizations, as political leaders, and in global forums such as the United Nations. The book is divided into three parts. Part one, brings together four essays about organized women’s activism across borders. The chapters in part two focus on the variety of women’s activism and explore women’s activism in different national and political contexts. And part three explores the changing relationships and inequalities among women. This book addresses women’s internationalism and struggle for their rights in the international arena; it deals with racism and colonialism in Australia, India and Europe; women’s movements and political activism in South Africa, Eastern Bengal (Bangladesh), the United Kingdom, Japan and France. Essential reading for anyone interested in women’s history and the history of activism more generally.

*Global Perspectives on Gender and Space* Taylor & Francis Group 2020-09-30 Feminism has re-shaped the way we think about equality, power relations and social change. Recent feminist scholarship has provided new theoretical frameworks, methodologies and empirical analyses of how gender and feminism are situated within the development process. Global Perspectives on Gender and Space:
Engaging Feminism and Development draws upon this framework to explore the effects of globalization on development in diverse geographical contexts. It explores how women's and men's lives are gendered in specific spaces as well as across multiple landscapes. Traveling from South Asia to sub-Saharan Africa to North America and the Caribbean, the contributions illustrate the link between gender and global development, including economic livelihoods, policy measures and environmental change. Divided into three sections, Global Perspectives on Gender and Space showcases the following issues: One) the impact of neoliberal policies on transnational migration, public services and microfinance programs; Two) feminist and participatory methodologies employed in the evaluation of land use, women's cooperatives and liberation struggles and Three) gendered approaches to climate change, natural disasters and conservation the global South. A feminist lens is the common thread throughout these sections that weaves gender into the very fabric of everyday life, providing a common link between varied spaces around the globe by mapping gendered patterns of power and social change. This timely volume provides geographic comparisons and case studies to give empirically informed insights on processes and practices relevant to feminism and development. It illustrates ways to empower individuals and communities through transnational struggles and grassroots organizations, while emphasizing human rights and gender equity, and will be of interest to those studying Geography, Development Studies, International Relations and Gender Studies.

Global Perspectives on the Biology and Life History of the White Shark incorporates the most important contemporary research findings into a single peer-reviewed book. This beautifully illustrated reference represents a historic change in the context of White Shark (Carcharodon carcharias) research. Once considered one of the most poorly understood and difficult sharks to study, this timely book recognizes a new sophisticated focus on the White Shark, raising its status from obscurity to enlightenment. The Global Perspectives on the Biology and Life History of the White Shark celebrates the White Shark as the most studied shark in the sea. Within the chapters one can find new insights into a vast range of topics, such as behavior, physiology, migration patterns, habitat preferences, daily activity patterns, molecular genetics, reproductive biology and new research methods. The book also delves into population monitoring and policy options for managers and researchers.

Women, Gender and Labour Migration
Lecturer in Social and Economic History Pamela Sharpe 2002-01-31
Approximately half of all migrants today are female. The contributors to this volume consider the ways in which attention to gender is moving debates away from old paradigms, such as the push/pull motivation which used to dominate the field of migration studies. The authors consider women's experience of migration, especially in long distance, transnational moves. They examine the extent to which labour migration is a social and strategic decision for women.

Feminisms Lucy Delap 2020-11-24 Feminism's origins have often been framed around a limited cast of mostly white and educated foremothers, but the truth is that feminism has been and continues to be a global movement. For
centuries, women from all walks of life have been mobilizing for gender justice. As the last decade has reminded even the most powerful women, there is nothing “post-feminist” about our world. And there is much to be learned from the passion and protests of the past. Historian Lucy Delap looks to the global past to give us a usable history of the movement against gender injustice—one that can help clarify questions of feminist strategy, priority and focus in the contemporary moment. Rooted in recent innovative histories, the book incorporates alternative starting points and new thinkers, challenging the presumed priority of European feminists and ranging across a global terrain of revolutions, religions, empires and anti-colonial struggles. In Feminisms, we find familiar stories—of suffrage, of solidarity, of protest—yet there is no assumption that feminism looks the same in each place or time. Instead, Delap explores a central paradox: feminists have demanded inclusion but have persistently practiced their own exclusions. Some voices are heard and others are routinely muted. In amplifying the voices of figures at the grassroots level, Delap shows us how a rich relationship to the feminist past can help inform its future.

The Oxford Handbook of Global LGBT and Sexual Diversity Politics Michael J. Bosia 2020-03-02 Struggles for LGBT rights and the security of sexual and gender minorities are ongoing, urgent concerns across the world. For students, scholars, and activists who work on these and related issues, this handbook provides a unique, interdisciplinary resource. In chapters by both emerging and senior scholars, the Oxford Handbook of Global LGBT and Sexual Diversity Politics introduces key concepts in LGBT political studies and queer theory. Additionally, the handbook offers historical, geographic, and topical case studies contextualized within theoretical frameworks from the sociology of sexualities, critical race studies, postcolonialism, indigenous theories, social movement theory, and international relations theory. It provides readers with up-to-date empirical material and critical assessments of the analytical significance, commonalities, and differences of global LGBT politics. The forward-looking analysis of state practice, transnational networks, and historical context presents crucial perspectives and opens new avenues for debate, dialogue, and theory.

Global Perspectives on the Rule of Law James J. Heckman 2013-03-01 Global Perspectives on the Rule of Law is a collection of original research on the rule of law from a panel of leading economists, political scientists, legal scholars, sociologists and historians. The chapters critically analyze the meaning and foundations of the rule of law and its relationship to economic and democratic development, challenging many of the underlying assumptions guiding the burgeoning field of rule of law development. The combination of jurisprudential, quantitative, historical/comparative, and theoretical analyses seeks to chart a new course in scholarship on the rule of law: the volume as a whole takes seriously the role of law in pursuing global justice, while confronting the complexity of instituting the rule of law and delivering its promised benefits. Written for scholars, practitioners, and policy-makers, Global Perspectives on the Rule of Law offers a unique combination of jurisprudential and empirical research that will be provocative and relevant to those who are attempting to understand and advance the rule of law globally. The chapters progress from broad questions
regarding current rule of development efforts and the concept of rule of law to more specific issues pertaining to economic and democratic development. Specific countries, such as China, India, and seventeenth century England and the Netherlands, serve as case studies in some chapters, while broad global surveys feature in other chapters. Indeed, this impressive scope of research ushers in the next generation of scholarship in this area.

**Gender in History** Merry E. Wiesner-Hanks 2021-12-20 A concise yet comprehensive account of the roles and influences of gender over the millennia, featuring new and updated content throughout. Gender in History: Global Perspectives, Third Edition, explores the construction and evolution of gender in many of the world’s cultures from the Paleolithic era to the COVID pandemic of the twenty-first century. Broad in geographic and topical scope, this comprehensive volume discusses the ways families, religions, social hierarchies, politics, work, education, art, sexuality, and other issues are linked to various conceptions of gender. Now organized chronologically rather than topically, this extensively revised edition presents a wealth of up-to-date information based on the scholarship of the last decade. New and expanded chapters offer insights on the connections between gender and key events and trends in world history, including domestication and the development of agriculture, the growth of cities and larger-scale political structures, the spread of world religions, changing ideas of race, class, and sexuality, colonialism and imperialism, capitalism, wars, revolutions, and more. Written by a distinguished scholar in the field of women’s and gender history, this third edition of Gender in History: Examines how gender roles were shaped by family life, religious traditions, various other institutions, and how the institutions were influenced by gender. Considers why gender variations developed in different cultures and in diverse social, ethnic, and racial groups within a single culture. Addresses ideas in different cultures that shaped both informal societal norms and formalized laws. Explores debates about the origins of patriarchy, the development of complex gender hierarchies, and contemporary movements for social change. Discusses the gender implications of modern issues including the global pandemic and ongoing cultural and economic shifts. Includes an accessible introduction to key theoretical and methodological issues and an instructor’s website with visual and written original sources. Gender in History: Global Perspectives, Third Edition, is essential reading for undergraduate and graduate students in courses such as those on women’s history, women in world history, and gender in world history, and a valuable supplement for general survey courses within History and Women’s and Gender Studies programs.

**Gender Education and Equality in a Global Context** Shailaja Fennell 2007-09-12 The Millennium Development Goals aim to achieve basic education for all by 2015. But can such global agendas address national and local gender inequalities and will they empower women through education? This thought-provoking book offers an opportunity to engage critically with existing and emergent conceptual frameworks and methodological approaches to this global debate. It is divided into three sections that: reconceptualise the definitions of gender equality used by various social scientific disciplines, international organisations and policy makers; illustrate the methodologies used to collect the
voices of young men and women and their teachers telling stories of their success in lifting the burdens of poverty and negotiating traditional gender relations; trace the impact of global gender agendas on national education policies, such as citizenship education, poverty reduction strategies, and feminist activism around adult women’s learning. Gender Education and Equality in a Global Context is an invaluable introduction to the range of conceptual frameworks and innovative research methods that address issues of gender education and development.

Global Perspectives on Gender Equality Naila Kabeer 2008-01-07 The Nordic countries have long been seen as pioneers in promoting gender equality. The book brings together scholars from the global South and post-socialist economies to reflect on Nordic approaches to gender equality. The contributors to the book seek to explore from a comparative perspective the vision, values, policies, mechanisms, coalitions of interests and political processes that help to explain Nordic achievements on gender equality. While some contributors explore the Nordic experience through the prism of their own realities, others explore their own realities through the Nordic prism. By cutting across normal geographical boundaries, disciplinary boundaries and the boundaries between theory and policy, this book will be of interest to all readers with an interest in furthering gender equality.

Global Perspectives in Modern Italian Culture Guido Abbattista 2021-09-23 Global Perspectives in Modern Italian Culture presents a series of unexplored case studies from the sixteenth to the twentieth century, each demonstrating how travellers, scientists, Catholic missionaries, scholars and diplomats coming from the Italian peninsula contributed to understandings of various global issues during the age of early globalization. It also examines how these individuals represented different parts of the world to an Italian audience, and how deeply Italian culture drew inspiration from the increasing knowledge of world ‘Otherness’. The first part of the book focuses on the production of knowledge, drawing on texts written by philosophers, scientists, historians and numerous other first-hand eyewitnesses. The second part analyses the dissemination and popularization of knowledge by focussing on previously understudied published works and initiatives aimed at learned Italian readers and the general public. Written in a lively and engaging manner, this book will appeal to scholars and students of early modern and modern European history, as well as those interested in global history.

Historical and Archaeological Perspectives on Gender Transformations Suzanne M. Spencer-Wood 2012-12-09 In many facets of Western culture, including archaeology, there remains a legacy of perceiving gender divisions as natural, innate, and biological in origin. This belief follows that men are naturally pre-disposed to public, intellectual pursuits, while women are innately designed to care for the home and take care of children. In the interpretation of material culture, accepted notions of gender roles are often applied to new findings: the dichotomy between the domestic sphere of women and the public sphere of men can color interpretations of new materials. In this innovative volume, the contributors focus explicitly on analyzing the materiality of historic changes in the domestic sphere around the world. Combining a global scope with great temporal depth, chapters in the volume explore how gender
ideologies, identities, relationships, power dynamics, and practices were materially changed in the past, thus showing how they could be changed in the future. Gender in History Merry E. Wiesner-Hanks 2001-10-16 This concise overview explores the construction of gender in many cultures around the world at different times. Feminist Theory Reader & Kim McCann 2003 Feminist Theory Reader is an anthology of classic and contemporary works of feminist theory, organized around the goal of providing both local and global perspectives.

Resisting Racism and Xenophobia Faye Venetia Harrison 2005 Faye V. Harrison's collection of essays focuses on the intersections between race, gender, sexuality, class, and nationality that exert a huge influence on human rights conflicts around the world. Using compelling examples, the authors illustrate the central premise that understanding the dynamics of these intersections has important implications for effectively confronting oppression and constructing positive change. Investigating conflicts in Europe, the Americas, Asia, Africa, and Australia, they also reflect upon political concerns and anxieties worldwide that have grown out of the catasrophe of 9/11. The contributors comprise an internationally diverse group of anthropologists and human rights activists concerned with global, culturally diverse, gendered experiences. This anthology will be valuable to instructors, human rights workers, and applied professionals in anthropology, gender studies, ethnic studies, and international human rights.

Building Feminist Movements and Organizations Lydia Alpízar Durán 2013-07-18 The struggle for the advancement of women's rights and gender equality globally is impossible without strong women's organizations and movements to provide leadership and momentum. But what does a strong women's organization look like? And what does it take to create effective and sustainable women's movements? This groundbreaking collection of essays by activists from all corners of the globe explores what it means to be an influential women's organization, and what it takes to build the kinds of movements needed to transform women's lives. From how to build successful participatory democratic processes and implement shared leadership models, to lessons on overcoming internal organizational divisions, the case studies in this collection focus not only on the "what" but also the "how" of movement building. Those concerned with how to effect sustainable change will find not only much food for thought, but also an abundance of creative ideas and innovative strategies served up with a uniquely feminist twist.

Global Women's Work Beth English 2018-12-07 This volume considers how women are shaping the global economic landscape through their labor, activism, and multiple discourses about work. Bringing together an interdisciplinary group of international scholars, the book offers a gendered examination of work in the global economy and analyses the effects of the 2008 downturn on women's labor force participation and workplace activism. The book addresses three key themes: exploitation versus opportunity; women's agency within the context of changing economic options; and women’s negotiations and renegotiations of unpaid social reproductive labor. This uniquely interdisciplinary and comparative analysis will be crucial reading for anyone with an interest in gender and the post-crisis world.

Global Gender Research Christine E. Bose 2009 This volume provides an in-depth comparative picture of the
current state of feminist sociological gender research and/or women's studies research for five regions of the world, represented by ten or eleven countries.

**A Companion to Gender History** Teresa A. Meade 2008-04-15

A Companion to Gender History surveys the history of women around the world, studies their interaction with men in gendered societies, and looks at the role of gender in shaping human behavior over thousands of years. An extensive survey of the history of women around the world, their interaction with men, and the role of gender in shaping human behavior over thousands of years. Discusses family history, the history of the body and sexuality, and cultural history alongside women's history and gender history. Considers the importance of class, region, ethnicity, race and religion to the formation of gendered societies. Contains both thematic essays and chronological-geographic essays. Gives due weight to pre-history and the pre-modern era as well as to the modern era. Written by scholars from across the English-speaking world and scholars for whom English is not their first language.

**Gender, Transitional Justice and Memorial Arts** Jelke Boesten 2021-05-18

This book examines the role of post-conflict memorial arts in bringing about gender justice in transitional societies. Art and post-violence memorialisation are currently widely debated. Scholars of human rights and of commemorative arts discuss the aesthetics and politics not only of sites of commemoration, but of literature, poetry, visual arts and increasingly, film and comics. Art, memory and activism are also increasingly intertwined. But within the literature around post-conflict transitional justice and critical human rights studies, there is little questioning about what memorial arts do for gender justice, how women and men are included and represented, and how this intertwines with other questions of identity and representation, such as race and ethnicity. The book brings together research from scholars around the world who are interested in the gendered dimensions of memory-making in transitional societies. Addressing a global range of cases, including genocide, authoritarianism, civil war, electoral violence and apartheid, they consider not only the gendered commemoration of past violence, but also the possibility of producing counter-narratives that unsettle and challenge established stereotypes. Aimed at those interested in the fields of transitional justice, memory studies, post-conflict peacebuilding, human rights and gender studies, this book will appeal to academics, researchers and practitioners.

**Global Perspectives on Women’s Leadership and Gender (In)Equality** Elena V. Shabliy 2020-07-16

This interdisciplinary volume discusses women’s global leadership and women’s rights advancement, identifying gender inequality as a persisting societal challenge and a major barrier to human development. Drawing on intersectionality as an important analytic and methodological tool, the contributors analyse women’s leadership roles across the world, featuring perspectives on the US, Israel, and Brazil, amongst other countries. The book also contributes to the growing field of leadership, presenting cross-cultural examples and case-studies of outstanding women and female leaders, as well as discussing contemporary leadership theories, and examining obstacles to women’s leadership. Global Perspectives on Women’s Leadership and Gender (In)Equality will be an important point of reference for students and scholars across the political...
Gender Lindsey L. Lindsey 2020-12-17 A landmark publication in the social sciences, Linda Lindsey’s Gender is the most comprehensive textbook to explore gender sociologically, as a critical and fundamental dimension of a person’s identity, interactions, development, and role and status in society. Ranging in scope from the everyday lived experiences of individuals to the complex patterns and structures of gender that are produced by institutions in our global society, the book reveals how understandings of gender vary across time and place and shift along the intersecting lines of race, ethnicity, culture, sexuality, class and religion. Arriving at a time of enormous social change, the new, seventh edition extends its rigorous, theoretical approach to reflect on recent events and issues with insights that challenge conventional thought about the gender binary and the stereotypes that result. Recent and emerging topics that are investigated include the #MeToo and LGBTQ-rights movements, political misogyny in the Trump era, norms of masculinity, marriage and family formation, resurgent feminist activism and praxis, the gendered workplace, and profound consequences of neoliberal globalization. Enriching its sociological approach with interdisciplinary insight from feminist, biological, psychological, historical, and anthropological perspectives, the new edition of Gender provides a balanced and broad approach with readable, dynamic content that furthers student understanding, both of the importance of gender and how it shapes individual trajectories and social processes in the U.S. and across the globe.

Gender and Race Matter Vasilikie Demos 2016 This innovative collection puts forward how women are able to challenge oppression through circumventing rules, roles, obligations and prejudice through a powerful agency. Chapters cover the experiences of women in different global settings related to education, political activism, corporeal violence, identity, sexuality, and poverty.

Institutionalizing Gender Equality Yulia Gradskova 2017-09 The book explores the internationalization and institutionalization of gender politics from the late 1960s to the present. It examines the successes, difficulties, and contradictions of this process by taking a global perspective, including case studies on the European Union, Mexico, South Korea, and Egypt, among others.

Disability, Gender and Violence over the Life Course Sonali Shah 2018-05-20 This is the first book to explore the interplay of disability, gender and violence over the life course from researcher, practitioner and survivor perspectives. It gives due weight to the accounts of disabled children and adults who have survived institutional or individual violence, evidencing barriers to recognition, disclosure and reporting. Written by disabled and non-disabled women from around the world, Disability, Gender and Violence over the Life Course addresses the dearth of voices and experiences of disabled women and girls in empirical research, policy and practice on issues of violence, victimisation, protection, support and prevention. Divided into three parts – Childhood, Adulthood and Older Life – this collection offers diverse perspectives on the intersectionality of disability, age, ethnicity, sexuality and violence that have hitherto been absent. This book will be an invaluable resource for students.
and practitioners of multiple fields of practice and academic studies, including health and social care, nursing, social work, childhood studies, gender studies, disability studies, safeguarding and child protection, equality and human rights, sociology and criminology.

**Women’s Lived Experiences of the Gender Gap**

Angela Fitzgerald 2021-06-20 This book explores gender inequity and the gender gap from a range of perspectives including historical, motherhood, professional life and diversity. Using a narrative approach, the book shares diverse experiences and perspectives of the gender gap and the pervasive impact it has. Through authors' in-depth insights and critical analysis, each chapter addresses the gender gap by providing a nuanced understanding of the impact of the particular lens. It shares a holistic understanding of lived experiences of gender inequity. The book offers interdisciplinary insights into current political, social, economic and cultural impacts on women and their lived experiences of inequity. It provides multiple voices from across the world and draws on narrative approaches to sharing evidence-based insights. It includes further insights and critique of each chapter to widen the perspectives shared as the gender gap is explored and provide rigorous discussion about what possibilities and challenges are inherent in the proposed solutions as well as offering new ones. Chapter 10 and chapter 11 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

**Gender History in a Transnational Perspective**

Oliver Janz 2014-04-30 Recent debates have used the concept of "transnational history" to broaden research on historical subjects that transcend national boundaries and encourage a shift away from official inter-state interactions to institutions, groups, and actors that have been obscured. This approach proves particularly fruitful for the dynamic field of global gender and women's history. By looking at the restless lives and work of women's activists in informal border-crossings, ephemeral NGOs, the lower management of established international organizations, and other global networks, this volume reflects the potential of a new perspective that allows for a more adequate analysis of transnational activities. By pointing out cultural hierarchies, the vicissitudes of translation and reinterpretation, and the ambiguity of intercultural exchange, this volume demonstrates the critical potential of transnational history. It allows us to see the limits of universalist and cosmopolitan claims so dear to many historical actors and historians.

**Feminist Theory Reader**

CAROLE MCCANN 2013-06-07 The third edition of the Feminist Theory Reader anthologizes the important classical and contemporary works of feminist theory within a multiracial transnational framework. This edition includes 16 new essays; the editors have organized the readings into four sections, which challenge the prevailing representation of feminist movements as waves. Introductory essays at the beginning of each section lay out the framework that brings the readings together and provide historical and intellectual context. Instructors who have adopted the book can email SalesHSS@taylorandfrancis.com to receive test questions associated with the readings. Please include your school and location (state/province/county/country) in the email. Now available for the first time in eBook format 978-0-203-59831-3.
Gender in History Merry E. Wiesner-Hanks 2011-06-24
Updated with new material to reflect the latest developments in the field, Gender in History: Global Perspectives, 2nd Edition, provides a concise overview of the construction of gender in world cultures from the Paleolithic era to modern times. Includes examples drawn from the most recent scholarship relating to a diverse range of cultures, from Ancient Mesopotamia to post-Soviet Russia, and from the Igbo of Nigeria, to the Iroquois of north eastern North America. Reflects new developments in the field with added coverage of primates, slavery, colonialism, masculinity, and transgender issues. Features significant discussion of the Paleolithic and Neolithic periods, an important trend in the study of world history. Lays out key theoretical and methodological issues in an introduction that is written in accessible language. Supplementary material for instructors and students available at www.wiley.com/go/wiesnerhanks

Women, Gender, and Human Rights Marjorie Agosín 2001 II: WOMEN AND HEALTH
Global Perspectives on Gender and Work Jacqueline Goodman-Draper 2010 This comprehensive reader examines the myriad ways in which work—whether it is well-paid, unpaid, or underpaid—profundly influences our roles in both the public and private spheres. Jacqueline Goodman has selected a key set of essays that examine influential arguments on the multifaceted ways in which gender inequality is linked to market and non-market work. The readings also explore paths to greater gender equality, as well as the ways in which men, women, and children both have adapted to and resisted their subordinate position in the global economy. With its rich interdisciplinary perspective, this text will be ideal for courses in sociology, political science, and women's and gender studies.

Global Perspectives on Global History Dominic Sachsenmaier 2011-08-04 In recent years, historians across the world have become increasingly interested in transnational and global approaches to the past. However, the debates surrounding this new border-crossing movement have remained limited in scope as theoretical exchanges on the tasks, responsibilities and potentials of global history have been largely confined to national or regional academic communities. In this groundbreaking book, Dominic Sachsenmaier sets out to redress this imbalance by offering a series of new perspectives on the global and local flows, sociologies of knowledge and hierarchies that are an intrinsic part of historical practice. Taking the United States, Germany and China as his main case studies, he reflects upon the character of different approaches to global history as well as their social, political and cultural contexts. He argues that this new global trend in historiography needs to be supported by a corresponding increase in transnational dialogue, cooperation and exchange.

Gender Politics and Mass Dictatorship J. Lim 2010-12-14 Unique in comparative scope, this volume brings together global scholarship on gender. Thirteen international experts explore the gendered mobilization of men and women in twentieth century European and Asian mass dictatorships and colonial empires, examining both mobilization 'from above' and self-empowerment 'from below'.

Introduction to Gender Jennifer Marchbank 2014-06-30 Thoroughly updated in this second edition, Introduction to Gender offers an interdisciplinary approach to the
main themes and debates in gender studies. This comprehensive and contemporary text explores the idea of gender from the perspectives of history, sociology, social policy, anthropology, psychology, politics, pedagogy and geography and considers issues such as health and illness, work, family, crime and violence, and culture and media. Throughout the text, studies on masculinity are highlighted alongside essential feminist work, producing an integrated investigation of the field. Key features: A thematic structure provides a clear exploration of each debate without losing sight of the interconnections between disciplines. World in focus boxes and international case studies offer a broad global perspective on gender studies. In-text features and student exercises, including Controversy, A critical look and Stop and think boxes, allow the reader to engage in the debates and revise the material covered. Hotlinks throughout the text make connections between chapters, allowing the reader to follow the path of particular issues and debates between topics and disciplines. New to the second edition: A new chapter explores gender through the discipline of philosophy. A new section on international relations brings this relevant topic into focus. Current discussion on the language of gender across Europe is brought in to Chapter 1. A focus on Europe and Scandinavia as well as the UK gives the text a broader scope. Examples are updated throughout to ensure the text is cutting-edge and relevant. Introduction to Gender, second edition is highly relevant to today’s students across the social sciences and is an essential introduction for students of sociology, women’s studies and men’s studies.

Illegal Migration and Gender in a Global and Historical Perspective Marlou Schrover 2008 This incisive study combines the two subjects and views the migration scholarship through the lens of the gender perspective. Feminist Constitutionalism Beverley Baines 2012-04-16 Explores the relationship between constitutional law and feminism, offering a spectrum of approaches and analysis set across a wide range of topics. Gender Equality in a Global Perspective Anders Ortenblad 2017-01-06 Gender Equality in a Global Perspective looks to discuss whether Gender Equality can be adopted as it has been defined in international documents anywhere, or whether it needs to be adapted in a more local context; discuss which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts; suggest research approaches for studies on whether a universal (Western) concept of Gender Equality fits in certain specific contexts; and finally suggests challenges to the existing interpretation of Gender Equality (e.g., theory of intersectionality); and the development of legal and policy framework. This book is situated within the tradition of comparative gender studies. While most other such books take up and compare various ways of implementing (or not implementing) gender equality, this book studies and compares whether or not (and to what extent) a specific definition of Gender Equality (GE) could be adopted by various nations. Thus, all chapter contributors will engage with the same definition of GE, which will be presented within the book, and discuss the possibilities and constrains related to applying such a definition in their particular national context. The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts.
maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open-ended answers. As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically. The intended audience is not limited only to but will include policy makers, scholars and students with an interest in Gender issues, Organizational Theory, Political Science, Human Development, Policy Analysis, Globalization and other management sub-disciplines.

Gendered Lives Nadine T. Fernandez 2022-01-01 A gender studies textbook that takes an anthropological approach. Gendered Lives takes a regional approach to examine gender issues from an anthropological perspective with a focus on globalization and intersectionality. Chapters present contributors' ethnographic research, contextualizing their findings within four geographic regions: Latin America, the Caribbean, South Asia, and the Global North. Each regional section begins with an overview of the broader historical, social, and gendered contexts, which situate the regions within larger global linkages. These introductions also feature short project/people profiles that highlight the work of community leaders or non-governmental organizations active in gender-related issues. Each research-based chapter begins with a chapter overview and learning objectives and closes with discussion questions and resources for further exploration. This modular, regional approach allows instructors to select the regions and cases they want to use in their courses. While they can be used separately, the chapters are connected through the book's central themes of globalization and intersectionality. Nadine T. Fernandez is Professor of Anthropology at the State University of New York Empire State College. She is the coeditor (with Christian Groes) of Intimate Mobilities: Sexual Economies, Marriage and Migration in a Disparate World. Katie Nelson is Instructor of Anthropology at Inver Hills Community College. She is the coeditor (with Beth Shook, Kelsie Aguilera, and Lara Braff) of Explorations: An Open Invitation to Biological Anthropology.

Performing Gender, Place, and Emotion in Music Fiona Magowan 2013 Presenting a range of ethnographic case studies from around the globe, this edited collection offers new ways of thinking about the interconnectivity of gender, place, and emotion in musical performance.
